Borger FCU will retain their name as a subsidiary of Santa Fe FCU.

3 TIPS FOR FINANCIAL SUCCESS IN 2023

1.) Think before you buy. Whether you're looking to purchase a vehicle or a new couch, planning for these larger purchases instead of splurging on a whim will help you stay on track. If the large item will require making payments, pay those payments to your savings account for three months before actually making the purchase. This will help you decide if the payments will be manageable before you are actually required to make them.

2.) Cut wasteful spending. We all know that things are more expensive than they used to be, which makes it even more important to ensure everything we buy is going to be put to good use. Take a look at the groceries you buy verses what gets used, how often you actually watch every streaming service you pay for, and compare similar items to save money.

3.) Save what you can. Rising rates make this a great time to open a CD, start an IRA, or just start building up a savings account!

PROTECTING YOURSELF

Unfortunately, with harder financial times also come big scams. Ensure that you are only putting your debit/credit card information into safe and secure websites. Look for: a lock icon to the left of the website in the address bar, a website that starts with https:// (the s is the important part), and a privacy policy. While this may not prevent all online fraud, it can deter quite a few scammers from getting your information!
