# 3 TIPS TO CUT SPENDING

**1.) Cut the Cord.** There is now a streaming service for almost everything. If you pay for cable, but only watch 3 or 4 channels, you could save a lot of money by simply switching to a streaming service.

**2.) Check Subscriptions.** Speaking of streaming services, if you are paying for ones you don't use, cancel them! Most of them allow you to start your account back up easily if you do decide you miss them. Also, check any other recurring transactions that are hitting your checking account. Makeup, clothing, music, and cloud subscriptions can all add up quickly!

**3.) Compare Insurance Rates.** Insurance is one of those fun things we all have to have, but nobody ever likes to pay for it. If you've recently seen a rate increase or haven't shopped around in the past few years, give it a go! You could end up saving \$100's a year just by making a switch.

# CHILD TAX CREDIT

The first round of the Child Tax Credit has started to hit accounts. Think of this credit as an advance on next year's tax return. If you are used to getting a large tax return, understand that this credit will most likely decrease that amount for 2022. You can opt out by visiting [www.irs.gov](http://www.irs.gov).

## PROTECTING YOURSELF

Unfortunately, with harder financial times also come big scams. Ensure that you are only putting your debit/credit card information into safe and secure websites. Look for: a lock icon to the left of the website in the address bar, a website that starts with <https://> (the s is the important part), and a privacy policy. While this may not prevent all online fraud, it can deter quite a few scammers from getting your information!
